

13 January 2015

Dear Parent/Guardian

GCSEPOD

The school currently subscribes to a service called GCSEPod which is completely free to your son or daughter and which we believe will be of great benefit to them during the coming year.

GCSEPod has over 3,500 teacher-written, audio-visual podcasts produced specifically for mobile devices and containing all the right facts, quotes, keywords, dates and annotated diagrams that learners need for GCSE success. The GCSEPod website can be viewed on mobiles, tablets and PCs and the podcasts can be downloaded for offline viewing. The podcasts are also mapped to the curriculum and are designed to support students in the classroom, with their homework and during exam time.

We recommend that you discuss GCSEPod with your son or daughter, ensure that they have correct login details to enter the site and encourage them to make use of this service throughout their year. We aim to make it an integral part of learning for every GCSE student studying at St Mary's.

All students have already been registered with GCSEPod and all have had the opportunity to activate their account on Monday 5 January 2015. If your son or daughter was not able to do this, I am outlining the activation process below.

To access GCSEPod for the first time, pupils should follow these three steps:

- 1) Go to www.gcsepod.com and click "Login" in the top right hand corner
- 2) Click "New here? Get started."
- 3) Enter their name, date of birth and choose their school
- 4) Use their C2K username e.g. asmith321 @stmarys.magherafelt.ni.sch.uk and C2K password (to be used when they next login) and select the subjects they study.

Once logged in, students can search for podcasts by keyword, by a specific exam or by subject area. Students can create their own personalised learning playlists which can be easily downloaded for offline viewing. Help guides explaining how to use the site are available at www.gcsepod.com/help.

If you have any questions regarding the GCSEPod service please contact Mr Dunlop or Mrs Daly who are leading the roll out in school.

For specific technical advice please use the help pages on the website or email support@gcsepod.com.

I do hope your son or daughter finds this as a useful resource.

With every good wish,

Yours sincerely
